

“Save the Date”

Scientific Symposium

“German-Polish Networks for the Environment – Innovative Projects for the Future”

Warsaw,

September 25th and 26th, 2019

Venue: *Polonia Palace Hotel (Al. Jerozolimskie 45)*

The German Federal Ministry of Education and Research (BMBF) and the Polish Ministry of Science and Higher Education (MNiSW) closely cooperate in the field of environmental and sustainability research since 2003.

Building up on successful bilateral Polish-German scientific events, the BMBF and a first choice selection of German centres of competence, environmental networks, universities and research institutions, kindly invite all interested visitors from scientific, research and industrial sectors to join this scientific symposium.

Six separate half-day long workshops will cover the following topics:

- ***Application of light-weight materials in e-mobility: New approaches for native or modified wood composites***
- ***Integrative management of water resources and water related risks***
- ***Neutral Lightweight Design – Progressive Approach for Sustainable Mobility***
- ***New trends for plasma-based innovation for environment***
- ***Land Management: Towards visionary peri-urban landscapes? Environmental governance mixes for sustainable peri-urbanization***
- ***Water Management: Development of innovative technologies and materials based on iron hydroxide for removal from process water and sewage water***

The workshops offer the possibility for presentation of research results of both organisers and Polish guests as well as for scientific discussions. In addition there will be time for individual specialized talks.

A reception „*German-Polish Evening of Research and Development*“ in the evening of September 25th will offer the possibility to meet Polish and German representatives of research, science, economy and politics and discuss joint R&D projects.

A detailed programme is in preparation!

Participation is free of charge!

We welcome your professional cooperation in the workshops!
